EDUCATION

IGNOU

Post Graduate Diploma in
Information Security (PGDIS)
2024-2025 May Expected

MD UNIVERSITY

Bachelor of Technology
C.S.E
2021 - 2024

CR POLYTECHNIC, ROHTAK

Three years diploma
Computer Engineering
2018 - 2021

SKILLS

- HTML, CSS, JavaScript
- SQL
- Python
- Shell Scripting
- SIEM Tool (Splunk)
- Networking (CCNA)
- Linux Administration
- DFIR
- OSINT
- Ethical Hacking
- Digital Forensic Investigation
- Data Recovery
- Vulnerability Assessment

CERTIFICATION

Digital Forensics Certification by
Maharaj Cybersecurity Pvt. Ltd.

ABOUT ME

Passionate about cybersecurity with a solid background in computer science. I've worked on digital forensics and ethical hacking, and I enjoy learning by doing. Currently focused on improving my skills

WORK EXPERIENCE

CYBER SECURITY TRAINER

Maharaj Cybersecurity Pvt. Ltd

- Conduct engaging and interactive training sessions for students on a range of cybersecurity topics, including foundational concepts, CEH, digital forensics, networking (basic & advanced), Linux OS, and scripting for automation.
- Develop and deliver hands-on training materials, practical labs, and real-world case studies covering areas such as vulnerability assessment, incident analysis, log monitoring, and forensic investigations.
- Provide mentorship to students by addressing queries, guiding them through technical challenges, assisting with project planning, and enhancing their investigative and analytical skills.
- Stay updated with the latest cybersecurity trends, tools, and techniques to deliver cutting-edge training.
- Collaborate with the academic team to design and enhance course content for optimal learning experiences.
- Deliver hands-on labs and case studies in Digital Forensics and Incident Response (DFIR), OSINT, Data Recovery, Memory Forensics, and Disk Imaging.

DIGITAL FORENSICS INTERN

Maharaj Cybersecurity Pvt. Ltd

- Assisting in the development of cybersecurity training course content
- Delivering engaging training sessions on various cybersecurity topics
- Delivering practical demonstrations and walkthroughs on Linux Administration and Shell Scripting for security operations and system hardening
- Conducting introductory sessions on HTML, CSS, JavaScript, SQL, and Python for cybersecurity-related scripting and automation tasks
- Supporting students in hands-on labs related to SIEM tools for threat detection, event correlation, and log analysis
